Armaan Khan Tufail

karmankkhan@gmail.com / (+91) 8433639534/7498149534 / Shelter Nest Taloja, Navi Mumbai 410208

DOB:10/01/2003

SKILLS

Programming Languages : C++, JavaScript, Python **,** Java
Frontend Technologies: HTML, CSS, React, Next.js, Git, Flutter Tailwind, Bootstrap
Backend Technologies: Node.js, Express.js, REST API
Databases: MongoDB, Firebase, MySQL,
Data Analytics : Excel, Tableau , Machine Learning**,**
React Concept : React hook, React Router , Context Api ,Redux, Error Boundaries

EDUCATION

BACHELOR'S DEGREE | Branch (Computer Science and Data Science) Mumbai University- Saraswati College of Engineering Kharghar	**CGPA: 7.5 | 2024**
12th HSC |Science(PCMB) HSC- Maharashtra Board -Bk Patil Jr College	**68.05% | 2020**
10th SSC SSC- Maharashtra State Board -National Urdu High School	**84.80% | 2018**

EXPERIENCE

Web Developer — Freelancing *Made a Frontend Part of Website – Html, CSS, JavaScript, Tailwind*	March 2023 – April 2023
React JS — Freelancing *Made a Weather Web-App Using React.js and Weather Api and Bootstrap*	April 2023 – May 2023
MERN — Freelancing *Made a Full Stack Project Carbon Emission – MongoDB, Express, Node, React*	Nov 2023 – Dec 2023

PROJECTS

Blog Website:- Created Dynamic Blog Platform Enabling User Search, Creation – HTML, Tailwind, JavaScript, React.js, Node.js, Express.js, REST API, MongoDB.

Smart Voting System: Developed a secure voting system with OTP and face recognition authentication using CNN, Firebase, React.js, Node.js, Python.

Smart Voting System: Revolutionize democracy with our Smart Voting System, leveraging MERN stack for secure authentication, verifiable ballots, and real-time result tracking. Make a authentication system based on otp verification on registered aadhaar card number and then face recognition using CNN **:** Firebase, React.js, Node.js ,Python).

Attendance Management System using MERN : - Web app for attendance tracking Including Features: authentication, record keeping, reporting.— MERN stack (MongoDB, Express.js, React.js, Node.js).

Todo Application (MERN Stack with Next.js):- Developed for task organization. Responsibilities included fron-tend/backend development, RESTful API design, authentication, testing:– Next.js, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Axios,

React Developer (Mern Stack)

I am a dedicated software developer proficient in frontend and backend development. Passionate about continuous learning, he enjoys exploring new technologies and improving his skills. With a keen interest in sports and self-improvement literature, Armaan brings a well-rounded approach to his work and life.

ACHIEVEMENTS / HOBBIES

Certification: **Build A Website Using WordPress** Coursera -JAN-2024
Completed various projects using React.js, demonstrating proficiency in building dynamic and responsive user interfaces.
Developed and deployed applications using MongoDB, showcasing expertise in database management and integration.
Proficient in version control with Git, effectively collaborating on projects and managing code repositories.
Learning New Skills or Technology, Proficient in time management, strong problem-solving skills, excellent communication skills
